1. Rolny, Textile and Clothing Works at Puchov, Slovakia

Manager: Smutny

Technical Chief: Novak

Employs 1,400 laborers and 120 office and other personnel. The factory produces clothing for home consumption as well as balloon silk for the USSR. Production schedules provide for 50,000 meters per month of the latter material, but actually a total of only 36,000 meters was produced in September.

2. Rice Plantation near Komarno

An experimental rice plantation, which uses forced labor from the Novaky and Ilava camps, has been established near Komarno (P48/Y76), Slovakia.

3. "Patronka" Works (a former cartridges factory), Bratislava

Manager: Dr. Krivos

Chief of Production: Dr. Toth (a German Communist at Dachau in 1942)

Deputy Chief: Dr. Kula

This plant is still under construction and is to be ready by 1952. However, production of oxygen is underway in the two buildings which have already been completed.

4. Dynomona - Explosives Section - Bratislava

a. Manager: Dr. Krivos

First Engineer: Tacovsky

First Foreman (Maister): Melikus

Second Foreman: Mrna

Third Foreman: Antal

b. Two hundred workmen are employed in this plant, working three six-hour shifts. During shifts, they receive one liter of milk per head as an extra allowance. Raw glycerine, as well as manufactured products, is being shipped under Russian supervision, via Komarno harbor.

3. The plant consists of 16 units, arranged as shown in the diagram below. Nitroglycerine is filtered in Shed 1, then processed in Sheds 2 and 3, and finally stored in Shed 4. From Shed 4 the nitroglycerine is collected in a larger storehouse and then shipped. The former antiaircraft shelters have been covered by a layer of concrete two meters thick and are now used as storehouses.
